ABOUT ME

I am a versatile Front-End Developer, Graphic Designer, and an undergraduate specializing in IT Security and Backend Development. With a passion for creating seamless user experiences and a strong foundation in security practices, I strive to deliver innovative solutions that merge design aesthetic with robust functionality.

As a Front-End Developer, I have honed my abilities to build responsive and dynamic web applications. I enjoy transforming creative ideas into reality using HTML, CSS, and JavaScript, ensuring that my projects are not only visually captivating but also user-friendly across all devices. My goal is to make every interaction meaningful and engaging.

In addition to my development expertise, I bring a creative flair as a Graphic Designer. I possess a strong understanding of visual communication principles, which allows me to design stunning graphics, logos, and branding elements. By prioritizing aesthetics and usability, I create designs that resonate with audiences and enhance brand identity.

Currently, as an undergraduate in IT Security and Backend Development, I am diving deep into the vital aspects of cybersecurity and server-side programming. My education equips me with the knowledge to implement secure coding practices and understand the intricacies of data protection. This dual focus on backend technologies and security ensures that I can build comprehensive applications that are both effective and secure.

I am passionate about continuous learning and am always eager to tackle new challenges. With a unique blend of front-end, design, backend, and security skills, I am excited about contributing to innovative projects that prioritize both user experience and security.

WORK EXPERIENCE

Ashwin Kumar

Mid level | Graphic designer
Nairobi , Kenya
2019-03-01 | 2024-01-01

As a Graphic Designer at the kitchenware shop, I create visually appealing marketing materials, including product catalogs, social media graphics, and in-store displays. I collaborate with the marketing team to ensure brand consistency and engage customers effectively, while also designing packaging that highlights our kitchenware's quality and functionality. Thats it.

EDUCATION

Graffin College

Diploma | Graphic design

Attending Graffin College for my education in graphic design has been a transformative experience that has equipped me with the skills, knowledge, and confidence needed to thrive in the dynamic field of visual communication. Founded with a mission to nurture innovative thinkers and creative problem solvers, Graffin College offers a curriculum that balances theoretical foundations with practical applications.

Program Overview

The graphic design program at Graffin College is known for its rigorous and comprehensive curriculum. Covering everything from fundamental design principles to advanced techniques in digital media, the program prepares aspiring designers to meet the challenges of modern graphic design. Students engage in a variety of courses that emphasize color theory, typography, layout design, branding, and user experience. One standout feature of the program is the integration of real-world projects, allowing students to work on hands-on assignments that mimic industry s

Alison

Certificate | Front end developer

As a front-end developer at Allison College, my journey has been a blend of creativity, technical expertise, and collaborative experiences that have shaped me into a proficient web developer. Working at a college renowned for its commitment to innovation and education has provided me with invaluable opportunities to collaborate on cutting-edge projects, engage with diverse teams, and continuously enhance my skill set.

Role and Responsibilities

In my role as a front-end developer, I am responsible for transforming design mockups into fully functional web applications. My daily tasks involve coding, testing, and deploying responsive websites that provide an optimal user experience across a variety of devices. I primarily work with HTML, CSS, and JavaScript, along with frameworks such as React and Vue.js, which allow me to build dynamic user interfaces. Additionally, I am involved in ensuring that our websites are accessible and meet web standards, which is crucial for enhancing usa

Alison

Certificate | IT security

As an IT Security undergraduate at Alison College, you are a driven and tech-savvy individual committed to mastering cybersecurity in an era of increasing digital threats. Alison's flexible, self-paced learning environment allows you to develop critical security skills while balancing work, education, and personal commitments. This profile outlines your academic journey, key competencies, career potential, and the unique advantages of studying IT Security at Alison.

Academic Journey at Alison College
1. Curriculum & Learning Structure
Your coursework at Alison College covers essential IT Security domains, including:

Cybersecurity Fundamentals: Understanding threats like malware, phishing, and social engineering.

Network Defense: Learning firewalls, VPNs, intrusion detection/prevention systems (IDS/IPS).

Ethical Hacking & Pen Testing: Gaining hands-on experience with tools like Metasploit, Burp Suite, and Nmap.

Cryptography & Secure Communications: Studying encryption, hashing, and
